Hello and Welcome to My Classroom!

Kids often find it easier to connect with animals — especially dogs. While dogs are always learning, they're also incredible teachers. What makes my presentations unique is that students experience the lesson *through the eyes of my therapy dog*. With Suki or Kong by my side, learning becomes fun, natural, and engaging — so much so, students don't even realize they're in the middle of a lesson.

I know what it's like to be "the" shy student who avoids raising their hand for fear of saying the wrong thing — I was one of them. That's why, during my interactive presentations with my therapy dog, I work with teachers to gently encourage quieter students to participate in a way that feels safe and supportive.

My presentations are not limited to the ones below. If you have a custom lesson, let's chat about how I can make it happen.

## **Therapy Dogs, Therapy Dogs vs. Service Dogs**

After reading one of my Blueberry Bear books, I have two separate PowerPoint presentations. One on just therapy dogs which explains the different jobs, and therapy dogs' traits.

Therapy Dogs vs. Service Dogs is also a PowerPoint presentation which describes the difference between the two. At the end of the presentation, I have a matchup game.

Students will be able to pet Suki or Kong.
